Project Registration Program

The purpose of the Swiftspace Project Registration Program is to enhance communication between the local Swiftspace rep and approved Swiftspace dealers. It will also serve as a guideline to register accounts and establish a business philosophy to support dealers that lead with Swiftspace. We look forward to working with you to make this a mutually beneficial program.

The Project Registration Form must be approved by the local Swiftspace Sales Rep to be valid.

The Swiftspace Program Registration works as follows:

1. Only projects with 15 units or more are eligible to be registered. Note the Registered Dealer will only receive the extra 8% available for project registration if the actual number of units ordered is 15 or more. All products count for 1 unit, except for mobile pedestals which count for .5 of an unit.
2. The dealer agrees to lead exclusively with Swiftspace products for the portion of the project where use of the product is applicable.
3. The dealer meets with the customer and/or specifier to sell our solutions for the specific opportunity. Sending a brochure, letter or having an old business card in a binder does not qualify as promoting the product.
4. The Dealer Salesperson must involve the Swiftspace Rep with the client in the sales process, specification process, and promotion of our products. Note the registration is not valid unless approved by the local Sales Rep.
5. The Dealer Salesperson agrees to provide the Swiftspace Rep with regular updates on the status of the project.
