

SHAPE

More than a Height Adjust table

Updated February 23, 2021

SWIFTSPACE
www.swiftspaceinc.com

1. Worksurface

Worksurfaces can be ordered as a single straight surface or as a dual surface in a L configuration. Standard depth is 24" or 30". Standard length is 46", 58" or 70". The worksurfaces are available in our standard Swiftspace materials, including a writable laminate surface at no additional charge. Worksurfaces can be ordered with a drafting option to be folded down and used as a whiteboard

2. Mobile Storage

Complete line of mobile pedestals, storage towers, and lateral files available.

3. Visual Privacy

Visual and Physical Privacy Panels can be added to the sides and back of the station to increase privacy. The panels are available in various heights, widths, and materials

4. Surround Panels

Surround Privacy panels in various heights and widths can be added. The HPL panels are stored on the SHAPE when folded and when the station is set-up they attach in place with no tools in seconds. Add a single panel when you want to share with another workstation, two panels for L shape, and three panels to create a U shape.

5. Height Adjustment

Easily adjust from a sitting to a standing position. Range from 23.2" to 49.4" with the push of a button. There are four pre-set height adjustments available. Range from 21.9"-48.1" available with smaller castors.

6. Castors

2.5" in diameter with grey rubber wheels that swivel and lock.

7. Accessory Rail

For mounting monitors, shelves, paper slots and binder storage.

8. Power and Data

This station uses Swiftspace power bar with 15ft cord (mounted under worksurface). The power bar, equipped with 6 outlets and 4 USB ports can be plugged into any 15 amp receptacle. With a 1" pinchpoint gap between the wall and worksurface, the power bar can be accessed over the back side or alternatively, through an optional grommet hole.

Excess cords can be stored in the wire basket that come standard under all worksurfaces.

The optional power/data trough can be used to house the Swiftspace Trac4 electrical system which can add an additional 40 amps of power and up to 40 data lines for long runs.

A clamp-on surface mounted power bar can be added. It plugs into the undersurface power bar.

Shape stations folded for easy transportation or storage

Our Shape Stations,

- Mobile all-in-one unfolding system, Storable at 15% of its original size
- No installation required Configure your workstation immediately
- No parts or pieces, Easy to reconfigure
