

Adapt quickly to your changing workspace.™

## Foresight Benching

The Foresight Benching system is a mobile all in one unfolding system that stores at 15% of it's open footprint. Easy to reconfigure and quickly change between focused and collaborative work.

## Features and Benefits

### 1. Mobile Storage

Complete line of mobile pedestals, storage towers, and lateral files available.

### 2. Privacy Panel

Panels can be added to center or side of stations for increased privacy. Panels can be mounted above the surface for increased privacy or moved below for collaboration. Various materials available.

### 3. Worksurface

Standard depth is 24" in a single or 30" in a double configuration. Standard lengths are 48", 60", 72" or 96". Work surfaces can be individually leveled to create a straight line when stations are grouped.

### 4. Accessories

Height-adjustable keyboard arms and trays and clamp-on monitor arms available for add-on.

Monitor arms can be fastened in two ways:  
1) Mounting bracket that fastens into the centre trough. Cut out is required however you can leave the monitor arm on when you fold the surface  
2) Use a mounting clamp. There is no cut out needed but the monitor arm must be removed before you fold the worksurface

### 5. Castor Cover

Hide casters when station is in use.

### 6. Power and Data

Comes standard with one detachable power bar that provides six electrical outlets and four USB outlets of surface power. Separate power/data trough to handle Swiftspace Plug & Play Power System and up to 40 data cables.

### 7. Visual Privacy

The mounting frame for center storage can be left open to allow for visual access to the other side. Can be filled with frosted acrylic, laminate, whiteboard, tackboard or EzoBord to increase privacy.

### 8. Accessory Rail

For mounting shelves, paper slots, and binder storage.

### 9. Attached Storage

Center and end storage is available as shared cubbies or full bins. Can be open, with dividers or with locking doors.
