

SWIFTSPACE | HEALTHCARE

The Future of Healthcare

In the dynamic world of healthcare, where every moment counts, your surroundings shouldn't hinder your ability to deliver top-notch care. Elevate your care with furnishings designed to keep pace with your ever-changing needs. Because in the fast-paced world of healthcare, every detail matters.

Our comprehensive approach to healthcare space solutions encompasses key pillars of adaptability, safety, cleanability, durability, and sustainability. By prioritizing these essential elements, we aim to empower healthcare facilities with innovative furniture solutions that not only meet their current needs but also anticipate and adapt to future challenges, ultimately enhancing the quality of care and the overall patient experience.

Adaptability

Healthcare is in constant motion and the need for flexibility and adaptability to maximize on investment and continuing to provide excellent care for patients. With completely mobile solutions, healthcare providers can quickly deploy triage stations and store them when not needed. Spaces can quickly be reconfigured to better suite a workflow. NEEDS EDIT

Safety

Swiftspace thoughtfully designs our products with details that support fall prevention, anti-tipping and ergonomics - these are just a few ways our products help create a safe environment in care facilities.

Durability

Our products are designed and built to withstand the rigors of any healthcare setting. All of our products are designed to set-up, take-down and reconfigure hundreds of times without degradation to the station. We make sure to select materials that can withstand this flexibility and frequent cleaning.

Cleanability & Infection Prevention

The ability to easily clean surfaces is integral to healthcare spaces. All surfaces can be wiped down and seating has wipe-out design to prevent accumulation of dirt. Take cleaning to the next step with mobile solutions, easily move stations away from walls to be able to thoroughly clean a space.

Sustainability

All of our products are MAS certified. Shipped fully assembled our stations roll right off the truck ready to be unfolded in the desired location, this ease of set-up reduces the need for outside installers, eliminating the carbon emissions with travel to site. The ability to replace parts and easily reconfigure means less stations in the landfill.

PET & Biophilia

Bring the outdoors in and create a serene and welcoming atmosphere by integrating Quiet Earth Moss into any of our panel products. Keep spaces calm with PET panels that help absorb noise and can help elevate levels of privacy in a space.
